Urban@tlas

Mapping the Metropolis

Urban@tlas is the first series of city atlases to look at the metropolis from two distinct perspectives:

How to get from here to there: 344 pages of the most detailed 3-D urban cartography available with each page equal to one square mile—a 20-minute walk across each page. Measures 6" x 6."

How we got here from there: Eleven haiku histories map crucial moments in the history of each decade and show how New Yorkers changed the way we look at ourselves as Americans.

*"A sophisticated resource."
